WINDSOR - *Canada's Ambassador City*

SOUTH OF THE BORDER

Windsor, Ontario, population 194,116 (metropolitan 213,097), is Canada's largest city on the U.S.-Canada border. It is situated on the Detroit River, one of the world's busiest waterways. During the 1967 season (280 days), vessel passages in both directions on this river totalled 14,185 (exclusive of passenger and sand boats) – an average of 51 per day, or one vessel every 28 minutes, carrying a total of over 125 million net tons of cargo. On this great inland water route, a part of the Great Lakes System, ply ships as long as 730 feet, carrying finished products and raw materials (iron ore, coal, limestone, grain, etc.) to and from the markets of the world.

Geographically, Windsor is situated south of many parts of the United States. Between Detroit (metropolitan population 4,214,000) and Windsor there cross in both directions each year over 29 million persons (1966 – 29,964,093) of whom over seven million (1966 – 7,389,826) are American visitors to Canada. Both communities are connected by railway tunnel, the Ambassador Bridge, the Detroit-Windsor vehicular tunnel and railway car ferries.

FROM SKILLED HANDS

Windsor's predominant activity is manufacturing which employs more than one third of the area's labour force. Even though it ranks only tenth by population among Canada's metropolitan area, Windsor is the country's fifth largest manufacturing center. Total manufacturing output increased by 60% between 1960 and 1964, from $495 million to $789 million. It is estimated that this figure reached $1,000 million in 1967. The dominant industries, in terms of value of goods produced, are automotive parts (34%), motor vehicle assembly (31%), foods and beverages (13%) and metal working and machinery (12%).

Windsor's thirty-odd auto parts manufacturers account for 25 to 30% of the nation's output in this industry. These companies include Chrysler, Ford and General Motors; Bendix, Champion Spark Plug and Kelsey Hayes. Most of these companies supply automakers in both Canada and the United States. The manufacture of motor vehicles themselves is important too. Chrysler and Kaiser Jeep both have all of their Canadian assembly operations in Windsor and their combined output has doubled since 1963.

There are more than 50 food and beverage processors in Windsor and another 20 in the rest of Essex County. Most of these plants process locally grown farm products. They include, on the food side, Chun King Corporation, Dainty Foods, Green Giant, H. J. Heinz, Krun-Chee Potato Chip and Stokely-Van Camp and, on the beverage side, Carling Breweries, Seagram's Calvert distillery and Hiram Walker & Sons.

Windsor's metal working know how is not just confined to automobile production. Metal fabricating and machinery building are substantial in their own right. The tooling industry is of particular significance. It is made up of some one hundred companies that produce a wide range of tools, dies, molds, patterns, models, jigs, fixtures and special machinery and employ a total of about 3,000 highly skilled workers.

The city's manufacturing base has expanded at a rapid rate these past five years. More than one hundred new firms have come into the city and many existing manufacturers have expanded their operations. The amount of money invested in new manufacturing facilities has averaged $68 million per year. Over the five year period more than 3.6 million square feet of new plant space has been built and the industrial work force has increased from 27,000 to 36,500. An annual average of 682 new single and 608 multiple dwellings were built in the area in 1967.

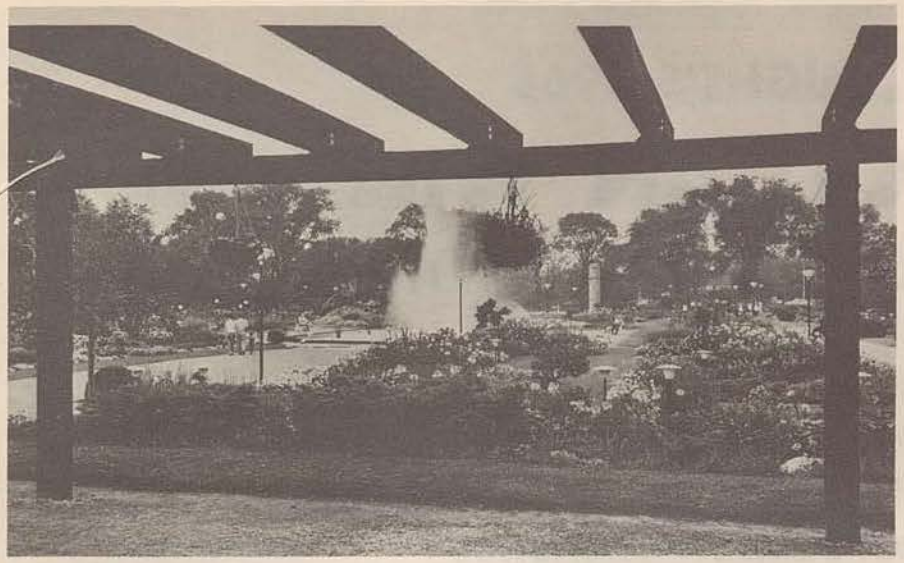
FROM HERE TO EVERYWHERE

This area is well served by five main railways and one terminal line; a transcontinental air line (Air Canada); a domestic and international air line (Canadian Pacific Air Lines Limited: South America-Mexico-Windsor to Madrid, Rome, Amsterdam and Australia); chartered flights, and highway transport facilities. An extensive expansion programme has been completed at the Windsor Airport ($1 million new terminal building, $1,340,000 in runways). Additional runways are planned for the near future to accommodate enlarged service. Windsor, too, is determined to realize every advantage of the St. Lawrence Seaway for its port which now provides Great Lakes transportation. Windsor port facilities are being improved and expanded. In 1967, total gross cargo tonnage, in and out of the harbour, amounted to 10,130,567.

DESIGN FOR BETTER LIVING

The Windsor area maintains its brisk pace with the amazing growth of Canada. The City has expanded since the end of World War II under a zoning system to protect the stability of residential, commercial and industrial properties. As of January 1, 1959, Windsor inaugurated the Council-Manager plan of municipal government. In co-operation with Canada's programme of pollution abatement a second sewage treatment plant is being constructed on the city's west side which, together with the first plant recently completed on the east side, will service the entire area.

Annexation of surrounding townships took place in January, 1966. The City now covers 31,583 acres.



The community is constantly developing a programme of progressive capital expenditures on a period basis. Current 1968-1972 capital works programme is $74,315,735 of which $46,077,698 will be debentured. The debenture debt as of December 31, 1967, is $29,690,386 which does not include an estimated amount of $4,759,905 which represents debenture debt which may be assumed from the suburban municipalities due to annexation. Windsor has one of the lowest ($179.65) per capita gross debenture debt among Canadian cities.

Windsor's programme of redevelopment and beautification launched in 1956, triggered immense private and public interest and investment here. Throughout the city, private enterprise is constructing office buildings, shopping plazas, hotel and apartment complexes.

This is the same programme responsible for today's very attractive Civic Centre, formed

around a nucleus which began with the Municipal Courts Building (1957), City Hall (1959), Essex County Courts Building (1963), and the Ontario Tourist Centre (downtown) (1963). In this vicinity are two major projects: a department store complex and a high-rise luxury apartment. A six-storey, 599-space municipal parking garage, in this same area, was opened in December, 1965.

Only the initial stages of Windsor's comprehensive waterfront development have been completed: the Cleary Auditorium and Memorial Convention Hall (1960), Dieppe Gardens (1960) and the Hiram Walker Historical Museum (1958). Centennial Park, west of the Cleary Auditorium, was completed in mid 1967 and is a part of the riverfront beautification which is to continue through to Huron Line.

The completion of a 231-unit Holiday Inn, with 34 additional bachelor apartments, theatre and office complex, near the Auditorium; the 150 room Seaway Inn and the major expansion of the Sheraton-Viscount Motor Hotel (both on Ouellette Avenue) all in 1967, will double Windsor's excellent vacation and convention facilities.

EDUCATION – GATEWAY TO PROGRESS

Metropolitan Windsor has excellent facilities for education of its 61,319 day students (1966) – 108 primary schools; 17 secondary schools, including two junior and one senior vocational schools; University of Windsor with Holy Redeemer, Canterbury and Iona Colleges as affiliates, and Assumption University of Windsor federated within the new University; the Windsor Teachers College (1962), and The St. Clair College of Applied Arts and Technology. Windsor is the first city in Ontario to have "language lab" courses in elementary and secondary schools.

Opportunities for all types of recreation are available here and for restoration and protection of health (five hospitals, the Essex County Sanatorium, Victorian Order of Nurses and Red Cross Units). All the basic voluntary, health, welfare and social agencies (23) are supported financially by the United Community Services of Greater Windsor established, originally, in 1947. An important programme for additional educational and hospital facilities, involving millions of dollars, is underway.

"AND PURE RELIGION BREATHING HOUSEHOLD LAWS"

There are approximately 161 churches and four synagogues in the Windsor area, embracing a wide group of religious affiliations.

PIONEERING IN MEDICINE – SOCIOLOGY – WELFARE

In the field of sociology, health and general welfare, Windsor has given a generous share of leadership. In 1949, Windsor established the first Child Guidance Clinic in Canada. In 1919 there was established in the Windsor area, the first amalgamated health unit in Canada comprising six communities. A larger unit for the entire county area (excepting Pelee Island) came into operation July 1, 1964. Windsor Medical Services Inc. (Windsor) is the first doctor-sponsored, prepaid community medical plan in Canada. Prescription Services Inc. (Windsor) is the first prepaid, voluntary medical prescription service in existence. The Windsor Cancer Clinic, opened in 1935, is one of the original cancer clinics sponsored by the Ontario Government. Windsor is one of the first four Ontario communities to establish (1954) homes for senior citizens. At present there are 108 such units for couples and 108 for individuals in Windsor and 212 additional units will be erected in the downtown area in the near future. In 1955, the first community co-ordinating centre for rehabilitation services in Ontario was established here. Windsor is among the first to have a Senior Citizens' Centre. Windsor's million dollar Huron Lodge one of the finest homes for the aged in Canada (158-bed capacity), was completed in 1961. In 1967, an addition was completed bringing the capacity to 260 beds. The need for accommodation is so great that the City of Windsor is planning a further home for the aged, similar to Huron Lodge, to be completed in 1969.

A FREE PRESS – BASTION OF DEMOCRACY

Windsor and Essex County (total population 284,000) enjoy the news services of an outstanding Canadian daily newspaper – The Windsor Star (winner John A. MacLaren Newspaper Award in 1965), circulation 84,197; ten weekly newspapers; Radio Stations CBE (1550), CKWW (580), CHYR (710) Leamington, CKLW (800), and CKLW-TV (9) one of the most powerful (325,000 watts) television stations on the North American continent.

DRIVE SAFELY – THE LIFE YOU SAVE MAY BE YOUR OWN

In spite of an increasing volume of traffic, Windsor's record compares favourably with traffic records of communities of similar size. Traffic accidents were held down to 7,137 and 24 fatalities in 1967. Area automobile registrations for 1967 totalled 94,978. Automobile traffic entering Canada through the Port of Windsor in 1967 amounted to 4,562,771. Progressive traffic changes and off-street parking facilities are being constantly studied and improved.

SUNSHINE AND MELLOW FRUITFULNESS

Windsor's industry is well balanced with a prosperous agricultural community in Essex County, well known as the "Sun Parlour of Canada" where are produced 33 different fruit and vegetable crops. Because of a favourable climate (average winter high 33, low 20; summer high 79, low 62), fertile soil and a long growing season (from average of 208 days in northern section to 216 days in the south), with average of 165 frost-free days, the county produces fruit (peaches, pears, apples, cherries) and vegetables that reach market one to five weeks earlier than any other area in Canada: corn, soy beans, wheat, oats, tobacco, sweet potatoes, asparagus. Farms here have a higher per capita production than anywhere else in Canada. 51% of total Ontario production of field crop tomatoes for canning are grown in Essex County. Essex County holds second place in the province in acreage devoted to fruit trees with peach and dwarf apples trees showing consistent gain. 1965 census figures set a value of approximately $7,400,000 on livestock and poultry in Essex County. There are over 300 acres of land under glass and plastic in the Sun Parlour of Canada – nearly half of the greenhouse area in Canada. These greenhouses produce more than $8 million worth of cucumbers and tomatoes annually. Floricultural products are becoming increasingly important. Yoder-Atkin Limited, nationally recognized propagators of floricultural material is located in Leamington, which is also the home of the world's largest tomato processing plant, operated by the H. J. Heinz Company of Canada Limited.

Out of Sight!

Out of Mind!

Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

METROPOLITAN WINDSOR

ALPHABETICAL DIRECTORY

Consisting of

An Alphabetical List of Names

Of individuals 18 years of age and over showing Christian and surname with initials, occupation with name of firm employed by or associated with and address with indication as to whether (h) householder or (r) residing (boarding, rooming, living at home). Wife's first name (where applicable) is shown in parentheses after husband's name.

Of commercial, industrial, financial, professional, religious and governmental organizations with names of executives showing titles, type of product or service produced or rendered and address.

Of clubs, associations, churches, trade unions and various other kinds of organizations, with address.

Of city, county, provincial and federal government departments and officials.

PLEASE NOTE:

(1) Many surnames have several different spellings. If you cannot find the name you are seeking under one spelling it may be listed under another.

(2) For list of abbreviations used see back of this page.
